their own writing. Children will be taught to write for a wide range of purposes and will be able to adapt the tone and style of their writing to reflect their audience. These skills will be present across fiction, non-fiction and poetry.	

Phonics

Skills	Experiences
Starting in nursery, we teach a structured phonics programme which equips children with the skills to be able to decode to read and encode to spell.	✓ Real books which show how phonics in used in real life contexts (Storytime Phonics) ✓ Multi sensory approach to learn new sounds – caption actions ✓ Play based games in Early Years

SPaG

Skills	Experiences
Opportunities to enhance children's grammar and punctuation will arise naturally from their reading and writing. As these skills increase, pupils will begin to understand the relationships between words and the effect that punctuation has on a sentence. Through their writing and speech, they should be taught to use Standard English and make effective punctuation and grammatical choices. The skills of using these effectively will be heavily developed during writing lessons; with emphasis on the creation of toolkits. Effective spelling is reliant on knowing the relationship between sounds and letters (phonics) and understanding the morphology and orthography of words. Through weekly spellings, children are taught these concepts.	✓ T4W style model texts to show how to be successful ✓ Read as a reader whole class

Handwriting

Skills	Experiences
At Ashleigh, we ensure children can write fluently, neatly, legibly and with speed.	✓ Watch teacher model expectations ✓ Access to good examples
