

Investigation Stations

Baking hedgehog rolls
Creating pictures using natural Autumn resources
Sorting animals into their habitat
Vegetables and fruits for exploring and observational drawing
Pumpkin tray

For the next three weeks we will be learning all about Autumn. We will be learning about Woodland Animals, Harvest and Seasons.

We will be exploring woodland habitats and animals that live there.

We will be learning about Harvest and celebrating with our own harvest festival.

We will be learning about the Autumn season and how it is different from the other seasons. We will be looking for signs of Autumn and using them in our activities.

Question to Ask

What is a Woodland habitat and what would you find there?

What is harvest?

How is harvest celebrated?

Why do we celebrate harvest?

What is Autumn and what signs can you find?

Autumn

30th September – 25th October 2019

Facts and Knowledge

I know that animals have different habitats and are suited to their own habitat. I know that Hedgehogs, Squirrels, Mice, Badgers, Owls and Foxes are all Woodland animals and I can describe them.

I know that Harvest is the time of year when the crops are harvested. I know that Harvest festival is a celebration of food grown on the land and to say thank you for what we have.

I know that there are four seasons; Autumn, Winter, Spring and Summer. I can compare Autumn to other seasons and describe the differences and similarities. I know what the signs of Autumn are and can talk about them.
